C1. Building elevations are based on: <input type="checkbox"/> Construction Drawings* <input type="checkbox"/> Building Under Construction* <input type="checkbox"/> Finished Construction					
*A new Elevation Certificate will be required when construction of the building is complete.					

Elevation Certificates -

B and B Surveying Company of Houston Texas

The **Elevation Certificate** is an important administrative tool of the National Flood Insurance Program (NFIP). It is to be used to provide elevation information necessary to ensure compliance with community floodplain management ordinances, to determine the proper insurance premium rate, and to support a request for a Letter of Map Amendment (LOMA) or Letter of Map Revision based on fill (LOMR-F). The Elevation Certificate is required in order to properly rate post-FIRM buildings. A new Elevation Certificate form was released 12/2012. It contains minor changes in the building diagrams and information presentation. Elevation Certificates after this date should use this new form.

[B and B Surveying](#) is happy to assist you with any surveying needs related to obtaining Elevation Certificate in the state of Texas. Click on the image to the right to view the Elevation Certificate form and instructions.
